MUPPANAMENU JASWANTH

AI / MACHINE LEARNING INTERN

jaswanthmuppanamenu@gmail.com | 9063232389 | GitHub | LinkedIn | PrintHub Demo

PROFESSIONAL SUMMARY

Third-year B.Tech Information Technology student with foundational experience in Python and data-science libraries, and a project exploring student exam outcome prediction. Seeking an AI/ML internship to develop skills in data preparation, supervised learning, model evaluation and practical problem-solving.

EDUCATION

B.Tech, Information Technology | Bonam Venkata Chalamayya Engineering College

Third Year | CGPA: 7.86/10 | Expected graduation: 2028

TECHNICAL SKILLS

Programming: Python, SQL, Java (basic), C (basic)
Data Libraries: NumPy, Pandas, Matplotlib
Machine Learning: scikit-learn, supervised learning, classification, model training and prediction (foundational)
Web & Tools: HTML, CSS, JavaScript (basic), Django , Git, GitHub, VS Code,FastAPI,API(APIkey)

SELECTED PROJECTS

Student Exam Outcome Prediction | Python, Pandas, scikit-learn

- Built a project to explore pass/fail prediction from student-related input data using a supervised-learning workflow.
- Prepared data and trained a classification model; add the actual algorithm, dataset size and measured evaluation score after checking your notebook/code.
- Project aim: help educators identify students who may benefit from additional academic support.

PrintHub — Deployed Web Application | Web Development

- Built and deployed a web application, demonstrating practical implementation and deployment experience.
- Live demo: printhub-nywv.onrender.com (confirm that the link is active before applying).

AI News Summarizer Dashboard — Recommended Project (build before listing as completed) | Python, Streamlit, API, optional NLP

- Planned feature set: ingest a small set of news articles, summarize them in plain English, and show each article with its original source link.
- List this as a completed project only after implementing and testing it; do not claim model accuracy unless you evaluate it.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Certified Foundation Associate (confirm exact certificate title)
- Oracle Cloud / AI Foundation certification(s) (use exact titles printed on certificates)
- Cyber Security — APSSD Corporation
- Data Analytics Job Simulation — Deloitte
- Second place — BVC web-development competition
- Participant — Smart India Hackathon (SIH)
- LeetCode: 80 problems solved (update this only when your current count changes)

Keep only skills and project features you can demonstrate and explain in an interview.
